25X1	Comment:	
	(1) The tanks and SP guns detrained in Farshim probably belonged to the 18th Mecz Div tank unit which is quartered in the Farchim Reiter Kaserne. The troops returned to their military post upon completion of the Third Shock Army meneuvers in the area east of Magdeburg.

(2) The tanks and motorized troops observed heading towards Ludwigslust and Meyenburg on 28 and 29 October 1949 probably belonged to component units of the 18th Mecz Div. The units may have participated in the final maneuvers in the area southeast of larchim in late October 1949. It appears possible, however, that the tanks moving towards Ludwigslust may have belonged to a tank unit which was transferred from Farchim to Ferleberg.	1.	
(3) The unit presumably belonged to an AAA unit which was transferred to Farchim. According to another report, the unit had been in Perleberg.		
(4) a GHQ unit of the GOFG. newly observed, mostly in connection with AA guns, in the Third Shock Army area since August 1949. a newly activated AAA unit of the GOFG which is stationed in the Third Shock Army area.		25X1
confirms the Parchim 60th Mecz Regt of the 18th Mecz Div up to late November 1949. (6) The Hq 18th Mecz Div had previously been in the Parchim Landratsamt. It is known from another report that the division headquarters was moved from Parchim to Perleberg.
